## TO THE SOLICITOR

And Engineer Goes Ohio Valley Electrical Ordinance

### TO RECEIVE THE AMENDMENTS

Suggested by the Former at the Meeting of the Council Committee on Ordinances Last Night—This Company Proposes to Operate Automobiles With Compressed Air or Electricity. Other Ordinances Considered.

At a meeting of the council committee on ordinances, held last evening, the ordinance granting an electrical and compressed air vehicle franchise to the Ohio Valley Electrical, Motor Power and Refrigerator Supply Company, was considered at length. The result was the reference of the ordinance to the city solicitor and city engineer, who are instructed to incorporate certain suggestions made last evening by the solicitor before the committee. One of the changes places the life of the franchise at thirty years; as originally drawn it was perpetual. This company, it was stated by one of the promoters, intends to enter the automobile field, and will run vehicles that will be operated by either compressed air or electricity. Its plans in this direction, however, are now in a crude state and remain to be worked out in detail. The ordinance also gives the company a straight-out electrical franchise similar to that of the Consumers' Company.

The committee was called to order at 8:40 p. m., after the petitions and remonstrances committee had adjourned. Chairman McCormick presided and members present were Councilmen Schmidt, Watson, Williams, Bradbury and Chew. Several other councilmen were present, including Messrs. Beckett, Caldwell, Fox, Marschner, Baird, City Solicitor Nesbitt, Mr. John J. Coniff, Mr. Morris Horkheimer, Mr. H. W. McLure and others were also present.

The ordinance of the Ohio Valley Electrical, Motor Power and Refrigerator Supply Company was brought up, but its reading was preceded by a report from City Solicitor Nesbitt, in which he stated the charter of the company is not yet on record and the incorporators are not known. The solicitor added that the grant is perpetual. Both the Consumers' and the Ohio Valley companies agree to furnish light to the public building, and both cannot do it. The ordinance also contains a license to operate vehicles by compressed air, which, says the solicitor, is not necessary. The solicitor also asked these questions:

When is the work of construction to begin?

When is the system to be completed?

What is to be the maximum rate of charge?

Are the poles of this or any other company to be allowed on Market or Main streets in the business section?

Concluding, the solicitor recommends that the ordinance contain a provision prohibiting any pooling, and that this and all other ordinances of this character be referred to the city engineer before passage.

The ordinance was read by Clerk Worla. It is on the lines of the Suburban Company's, with the exception of the provisions for producing compressed air and running automobile vehicles, and it grants a perpetual franchise, while the Suburban franchise is for thirty years. At the suggestion of Chairman McCormick Mr. Coniff, representing the Ohio Valley Company, spoke. The charter, he said, had arrived and was now in his office. The incorporators are John J. Coniff, C. M. Frissell, H. W. McLure, F. H. Lange, Morris Horkheimer. As to the life of the franchise, he said the company would accept a limited life franchise if considered desirable by the committee or council. As to the compressed air stations and vehicles he said they will be run in connection, and he believed there should be a grant of this privilege by council. As to other inquiries by the solicitor, he said his company did not want to be hampered by provisions not in the Wheeling and Consumers' ordinances. He could not see any objection to the ordinance being referred to the city engineer for recommendations. He would not object to a provision against pooling. "Our company has no desire to pool with any company in the city of Wheeling."

Mr. Horkheimer addressed the committee and said the company did not propose to enter the electric light business primarily. Primarily the company proposes to enter the automobile field, with compressed air as the power. Perhaps compressed air will not be successful. Then electricity will be used. The company proposes to bring, if possible, a better power than electricity for light and power. The company asks for no exclusive franchise; it asks to be allowed to experiment in a field in which municipalities or private corporations are experimenting all over the country.

Dr. C. M. Frissell, also of the company, said that the company is in the field for business and has no connection with any other company. He felt this explanation was due the committee, as he had heard rumors that the Ohio Valley Company was a "side issue" to this or that company.

City Solicitor Nesbitt said he had little to add to his report. The fact remains, he said, that this is an electric light franchise, with a "compressed air" trailer. It is a complete electric light franchise. The committee, he said, is not informed as to what the structures are which the company will desire to erect on the streets. He failed to see any necessity for a franchise to run compressed air or any other type of vehicle.

Mr. Bradbury objected to a perpetual franchise, as is contemplated in the present ordinance. He moved that a time limit be inserted. Mr. Schmidt seconded the motion. Mr. Williams amended that the life of the franchise be thirty years. The amendment and motion prevailed.

The city solicitor's suggestions were next taken up. Mr. Watson moved that the ordinance be referred to the city solicitor and city engineer to carry out

the solicitor's suggestions. The motion went through without objection.

The Baird weed ordinance, laid on the table some time ago, was brought up again. It provides that it shall be unlawful to allow the growth of noxious weeds on private property. Mr. Bradbury believed such a measure would be unconstitutional.

Mr. Baird said the Island weed is very rank, reaching in height a man's head. Vacant lots are filled with them. From a health standpoint they ought to be removed. The adoption of the ordinance was recommended.

Mr. Schmidt inquired what had become of the Strobel resolution instructing the drafting of an ordinance giving the city gas board power to sell electricity for light, power, etc. The resolution was unearched, also City Solicitor Nesbitt's opinion that the city must first acquire the Wheeling Electric Company's plant.

Mr. Bradbury moved that the city solicitor secure data as to the amount of money necessary to be expended to place the city in the electric lighting field. The motion was seconded and passed.

An ordinance compelling street railway companies to use a fender that is effective was read and referred back to the city solicitor for further investigation. Two councilmen stated that they had been informed that the Wheeling Railway Company's fenders do not work when needed.

The Chew ordinance, providing for an audit every two weeks to the council committee on accounts by the water board and gas board, was read. It was recommended to council for passage.

At 9:50 p. m. the committee adjourned.

### Real Estate Committee.

The committee on real estate of council met last night, with Chairman Fair in the chair. Bills to the amount of \$32 15 were ordered paid. The bid of Richard Ross for whitewashing the basement of the city building was accepted. The resolution of council that \$600 be appropriated from the contingent fund to wire the city building, was laid over for future consideration. The application of Fred Miller and Rash Harris for the lease of lots on the city commons, north Chapline street, was accepted.

THE pleasure of eating bread is perfect when the bread is Wheeling Bakery's. It's sure to suit and you don't tire of it.

### Builders Exchange Excursion

to Put-in-Bay, Saturday, July 22, via Wheeling & Lake Erie to Toledo, thence by Detroit & Cleveland Line steamers. Only \$5 round trip, good fifteen days. ### KIDNEY AND BLADDER

#### TROUBLES PROMPTLY CURED.

A Sample Bottle Sent Free by Mail. Dr. Kilmer's Swamp Root, the wonderful new discovery in medical science, fulfills every wish in promptly curing kidney, bladder and uric acid troubles, rheumatism and pain in the back. It corrects inability to hold water and sealding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

If you need a medicine you should have the best. Sold by druggists in fifty-cent and one dollar sizes. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, and its great cures, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention that you read this generous offer in the Wheeling Daily Intelligencer.

### PERSONAL NOTES.

Going and Coming of Wheeling People and Visitors.

W. J. Statler is visiting his brother, E. M. Statler, in Buffalo, N. Y.

Dr. T. H. Melghen left last evening on a brief visit to his parents, at Littleton.

H. W. Hemphill returned yesterday from a sojourn at the New Jersey coast resorts.

Mr. and Mrs. Will McElroy, of the Eighth ward, have returned from Detroit.

Mrs. Martin Burns and daughter, Nellie, of Parkersburg, are visiting South Side relatives.

Mrs. William Hall and daughter Mary, of South Jacob street, returned last evening from a three weeks' visit at East Liverpool.

Miss Lydia Burns, of Staebenville, who, for the past month has been the guest of Miss Allie Medley, of the Island, has returned home.

Montgomery J. McPeely, telephone inspector, is spending a few days down the river, where he is causing great havoc among the finny tribe.

Miss Elizabeth Boyd, of South Chapline street, accompanied by Miss Alma Barber, of the Island, is visiting at Detroit and making a tour of the lakes.

Prof. Joseph Keller, an old Wheeling boy, now instructor in music in a college at Little Rock, Ark., accompanied by his wife and family, is in the city visiting old friends.

### The Pickpocketing Case.

Last night at the county jail, Squire Greer conducted the hearing of Will Bilno and Bert McConaughy, charged with touching William Alexander, a St. Clairville man, for \$33 at a second ward poker joint. Bilno was held for the grand jury and McConaughy was released, it being shown that he was not a party to the theft. He will appear at the trial to ensue merely as a witness.

A DRINK for the gods. The pure juice of the grape, naturally fermented, such is Cook's Imperial Extra Dry Champagne.

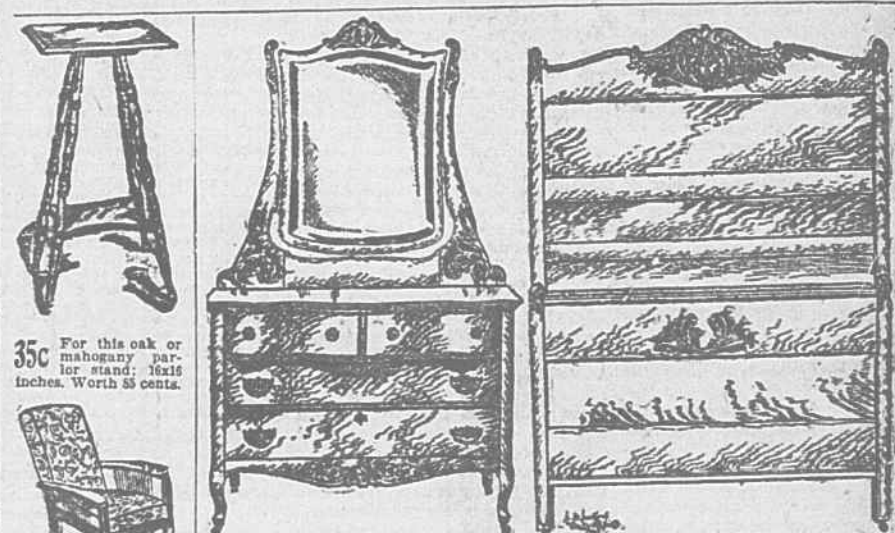

BREAD winners should see they get Wheeling Bakery Bread. Cheapest because it is best.
